FIXTURE

What Fixture means for you

Your trade uses Fixture Pro for their round. If they invite you, you can link to them in Fixture and see your visits with them in one place.

What you'll see

- Your next visits at your home, on your own week.
- What's still to pay, and how your trade likes to be paid.
- A way to ask them to move a visit or add an extra.
- A way to tell them you're away, or that you've paid.

What it costs

Fixture is free for you while you're linked to your trade. Their invitation opens without an account.

Your data

Your home's records are yours. Nobody else sees them unless you invite them or share something with them.

Questions

Ask your trade, read myfixture.co.uk/trust, or email support@myfixture.co.uk.
